

**Application Requirements for the Surgical Technology Program
January 2022**

Please read the following information carefully. All application items on pages 11-12 are required.

1. Incomplete applications and application documents received outside the application period will not be processed.
2. Adult applicants only, who are at least 18 years old, and have an official documentation of a high school diploma.
3. Official high school diploma and college level transcripts are required in a sealed envelope or by official electronic submission from the respective school or college.
4. Both of the BCI Background Check and Work-Med Drug, 9 Panel, results are required before the application deadline.
5. Allow 3 weeks in advance to obtain the BCI Background Check and Intermountain Work-Med Drug Panel results. BCI and Intermountain Work-Med will send these results documents directly to the MTECH Surgical Technology Program.
6. Applying does not guarantee an interview, nor admission to the program. Incomplete applications will not be processed.
7. A competitive, points-based process determines entry into the Surgical Technology Program. There is no waiting list.
8. Mountainland Technical College (MTECH) is fully committed to policies of non-discrimination and equal opportunity.

MTECH does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities.

The following person has been designated to handle inquiries regarding nondiscrimination policies:

Justin Browning

Department of Education

Title IX Coordinator

Mountainland Technical College

2301 West Ashton Blvd.

Lehi, UT 84043

Phone 801-753-4137

jbrowning@mtec.edu

Office for Civil Rights, Denver Office U.S.

Cesar E. Chavez Memorial Building

1244 Speer Boulevard, Suite 310

Denver, CO 80204-3582

Phone: 303-844-5695

Fax: 303-844-4303

TDD: 800-877-8339

OCR.Denver@ed.gov

9. If you are applying for Federal Financial Aid, please go to <https://mtec.edu/student-services/> for more information. It is recommended to apply at least three weeks before the program starts to ensure processing prior to your start date.
10. Please read this application packet and the Surgical Technology Program webpage for information about the application deadline date and application process at: <https://mtec.edu/programs/surgical-technology/>
11. This is a 1,314-clock hour program, including a 500-hour clinical externship.
12. **Submit the completed application packet, two ways:** (must be received by the deadline date on the program web page).
 - a. **Hand deliver** your completed application to the MTECH Lehi Campus Student Services Office, Monday through Friday from 8 am to 5 pm. Please do not mail or deliver application to any other campus.
 - b. **Mail** your completed application to the following address:
 - Mountainland Technical College (Lehi Campus)
 - 2301 Ashton Blvd., Lehi, Utah 84043; ATTN: SURGICAL TECHNOLOGY PROGRAM;

SURGICAL TECHNOLOGY PROGRAM INFORMATION

MTECH MISSION STATEMENT

To enhance the employability of individuals through market-driven career and technical education.

SURGICAL TECHNOLOGY PROGRAM MISSION STATEMENT

To prepare competent entry-level surgical technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

PROGRAM DESCRIPTION

The Surgical Technology Program prepares individuals to work primarily in the operating room. Students will be placed in clinical facilities at the discretion of the program coordinator. Students must provide their own transportation to and from the clinical sites and may be required to take public transportation. Upon completion of the program, students will receive an MTECH Certificate in Surgical Technology. All students are required to participate in the Certified Surgical Technologist (CST) examination as required by The Commission on Accreditation of Allied Health Education Programs (CAAHEP). This is an accreditation requirement that all MTECH Surgical Technology students must adhere to for course completion and graduation eligibility. The Surgical Technology Program is limited to the number of available clinical sites.

JOB DESCRIPTION

The Surgical Technologist is an individual with specialized education who functions as a member of the surgical team in the role of surgical Technology person. This person assists with surgical procedures, creates and maintains the sterile surgical field, sets up the surgical field, and hands the instruments, sutures, and other equipment needed to the surgeon to do the procedure. This person is also responsible for care of the instruments before and after the procedure. Employment opportunities are available in hospitals, surgical centers, labor and delivery, and physician's surgical suites.

PREREQUISITES

Surgical Technology Program cohorts beginning on or after August 1, 2021, must complete with a minimum Associate Degree award. Students possessing an Associate Degree or higher at the time they apply for the Surgical Technology Program, meet this requirement.

For those students who do not meet the Associate Degree requirement, a pathway with Utah Valley University is in place. Please see the included requirements for an Associate of Applied Science degree in Health Care Professions. All classes must be completed before enrolling at MTECH for the Surgical

Technology Program. Completion of the MTECH Program will award 30 credits towards the AAS at UVU and allow the student to be eligible for graduation from Utah Valley University as well as to sit for the CST National Exam with NBSTSA to become a Certified Surgical Technologist.

The required prerequisite classes must be taken from a regionally accredited college or university (Utah Valley University, Brigham Young University, Utah State University, Salt Lake Community College, Weber State University, etc) and be completed with a B- or better. Prerequisite classes taken at schools such as Provo College, Ameritech, study.com, etc will not be accepted by MTECH. If you have a question about one of your prerequisite classes, please email the Surgical Technology Program Coordinator, Shauna Jackson. (sjackson@mtec.edu)

PHYSICAL REQUIREMENTS

The Surgical Technologist must be in good physical and mental health to withstand the rigors of the job. Requirements include:

- o Manual dexterity. Pushing/Pulling.
- o Good vision, and Good hearing
- o Good communication (hearing, listening, writing, and speaking skills)
- o Standing for long periods of time without breaks or stopping for meals
- o Mobility
- o Must be able to lift 50 pounds.

DRUG SCREENING

- Prospective students must take the **9 Panel drug screen** at Intermountain Orem Work-Med, for the application process.
- Intermountain Orem Work-Med will send the results directly to the MTECH Surgical Technology Program.
- Surgical Technology students must take a second drug screen, within 48 hours before starting a clinical externship rotation.
- **Students are responsible for the BCI background check and the 9 panel drug screen fees.**
- If further test(s) are required by the medical review officer physician to determine safe level(s) or if a controlled substance is found, the student will be responsible for the cost of this test as well.
- All students must understand that over the course of this program, if at any time the program coordinator, clinical supervisor, instructors or facility personnel become suspicious of illegal drug or alcohol abuse, the police will be called and the student may be required to take a drug test (out-of-pocket). If a student declines such a request, or tests positive for any misuse of a substance, they may be dismissed from the program.

BACKGROUND CHECKS

Prospective Surgical Technology students must complete a background check through the Utah Bureau of Criminal Investigations (BCI). The student is responsible for the cost. Forms may be printed from the program web page for you to submit to BCI.

- Background check results must be less than 12 months old and current for the year of the application.
- Apply for BCI background check 3 weeks prior to the program application deadline.
- Post mail the BCI application, fee, fingerprints, and completed Third-Party Release form to BCI.
- Fingerprints may be done at your local police station. Make an appointment ahead because these times fill up fast.
- Prospective students may visit the BCI in Taylorsville, Utah and obtain results in person.
- BCI may require an appointment. Please make the appointment as soon as possible because the appointments fill up fast.
- Results documentation that is received from BCI after the application deadline will be considered an incomplete application.

EXTERNSHIP POLICY

Upon satisfactory completion (80% or higher) of all exams, assignments, professionalism, program attendance (95%), and payment of all college costs and fees, students will be eligible for a clinical externship. Students may only begin their externship after they have passed all three final competencies (instrumentation final, written final, mock surgery final). All students must be fully prepared, able, and willing to represent MTECH in a professional manner.

The Surgical Technology Clinical Coordinator arranges externship placements for all students at appropriate facilities. The student is responsible for transportation to and from the externship sites. **No concession or guarantees will be made regarding the distance, day, time, instructor, facility or other student preference.**

The externship experience is a period of learning, observing, and practicing the skills learned in the student's program. Upon completion of a clinical externship site rotation, the clinical externship supervisor will complete an evaluation report of the student's performance. Failure to perform professionally while on a clinical externship rotation, including speech or demeanor, which reflects poorly on the college or affiliated clinical externship site, may result in dismissal from the clinical site and/or college.

Students are expected to complete their clinical externship experience within the period allotted.

Students must not schedule breaks, vacations, or major life events during their program course or clinical externship, nor schedule a break between the end of the classroom portion and the externship period. It may be necessary to assign a student to a clinical externship training facility that is up to 100 miles one way from the student's home.

Each Surgical Technology student is required to fulfill the Association of Surgical Technologists (AST) clinical externship requirements. The requirements include clinical experience with 120 required procedures and 500 hours. These procedures are broken down into general and specialty procedures and the scrub roles required. These requirements will be explained when the student is eligible for clinical externship training.

NATIONAL CERTIFICATION EXAM (Certified Surgical Technologist) (CST)

Effective August 1, 2011, all students are required to participate in the Certified Surgical Technology (CST) examination as mandated by The Commission on Accreditation of Allied Health Education Programs (CAAHEP). This is an accreditation requirement that all MTECH Surgical Technology students must adhere to for course completion and graduation eligibility. Students beginning the Surgical Technology Program after August 1, 2021 must have an Associate's Degree or higher to be eligible to certify.

The National Board of Surgical Technologists and Surgical Assistants (NBSTSA) administers the CST examination. All students must sit for this examination at the college towards the end of their clinical externship. The CST exam will be administered at the college and it is mandatory that all students return to the college on the scheduled examination date/time. The NBSTSA does not allow any exceptions for absences. The NBSTSA will forfeit the exam attempt and fee if the student is late or absent for the date and time of the exam.

BASIC LIFE SUPPORT (BLS for the Healthcare Provider)

Students must be BLS Certified before going out on externship. All participating surgical facilities and hospitals require that each student be BLS Healthcare Provider certified prior to entrance into the surgical facility for externship training. It is mandatory that ALL students attend the on-campus BLS Healthcare Provider course as part of the Surgical Technology Program.

PROGRESSION PROCEDURE

All students must maintain progress at a rate of 80% (B grade) or better. Failing to do so will result in the student being placed on probation by a school counselor. The student must raise their progress to 80% according to their Academic Improvement Plan or the student will be dismissed from the program due to lack of progress.

STUDENT ATTENDANCE POLICY

Due to the hands-on nature of the training received, attendance is very important in all MTECH programs. It is very difficult to make up for missed training and as a result, 85% attendance is required in all MTECH programs. However, due to state licensure requirements, some programs have stricter attendance requirements that need to be met in order to receive the license. The instructors of those programs will explain the attendance rules. Students are responsible to notify the instructor before upcoming absences or emergencies that arise that may cause them to miss class, lab or clinical externship. **The MTECH Surgical Technology Program requires 95% attendance.**

DRESS CODE POLICY

Surgical Technology Program students are required to wear program specific scrubs. The scrub uniform is a pewter/gray scrub top and a black scrub pant. This scrub uniform is available for purchase, by the student, in the MTECH Lehi Bookstore. Closed toe shoes, in good repair, and that are liquid repellent, are to be worn at all times during lab and class. Open-toe shoes, canvas shoes, flip-flops, slippers, and sandals are not allowed for the safety of the student.

Students will wear their school uniform scrubs upon entrance to and upon exit from the college campus and all clinical externship site facilities. Students may be required to change from their school uniform scrubs into the clinical externship site approved scrubs at the facility. Students dressed inappropriately for class or for a clinical externship site will be directed to leave the site. If a student fails to comply with the dress standards after counseling by the Program Coordinator or instructor, the student will meet with the Academic and Career Counselor. The student will improve or the student's dismissal will be required. Jewelry of any kind is prohibited at all clinical externship site assignments, according to the policy of the assigned facility. This includes visible piercings of the ear, eyebrow, cheek, tongue, lip, and other surfaces. Failure to adhere to this college and industry standard may result in a student's dismissal from the program. Fingernails are required to be short and free of polish. Artificial, acrylic, gel, or dipped nails are prohibited, as they harbor copious amounts of microbes. Failure to adhere to this college and industry standards may result in a student's dismissal from the program. Good hygiene and grooming are essential. **The college and all surgical site facilities are smoking and vaping free campuses.**

PROGRAM STUDENT LEARNING OUTCOMES

1. Prepare competent entry-level surgical technologists in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
2. Prepare surgical technology students to sit for the National Board Exam for Surgical Technologists and Surgical Assistants.

3. Prepare surgical technology students to scrub in the primary role in Endoscopy, General, Obstetrics and Gynecology, Otorhinolaryngology, Genitourinary, Orthopedic, Oral and Maxillofacial, Plastic and Reconstructive, Ophthalmic, Peripheral Vascular, Cardiovascular and Neurological specialties.
4. Engage students in a clinical experience under the supervision of an experienced and certified surgical technologist.
5. Students must provide documentation evidence of a minimum of 120 surgical cases. Show 30 cases in General Surgery, of which 20 must be in the First Scrub Role. Show 90 cases in various surgical specialties, of which 60 cases must be in the First Scrub Role and evenly distributed between a minimum of five surgical specialties. Demonstrate progression in First and Second Scrubbing surgical procedures of increased complexity as he/she moves towards entry-level graduate abilities.
6. Develop effective communication skills including reading, writing, speaking and listening as necessary in the surgical setting.
7. Develop reasoning, problem solving, and anticipation, and prioritization skills in the surgical setting in order to effectively create and organize the sterile field for efficiency, safety and conservation of financial resources.
8. Prepare students to serve various patient populations with an ability to meet their individual needs including those of diverse ethnicity, religion, disability, gender, age, and sexual orientation.
9. Develop a strong surgical conscience in the student, and always place the patient first.

MTECH SURGICAL TECHNOLOGY CLASS SCHEDULE (EXTERNSHIP TIMES WILL VARY)

DAYS	TIMES
Monday	7:30 am-2:00 pm with a one hour lunch break
Tuesday	7:30 am-2:00 pm with a one hour lunch break
Wednesday	7:30 am-2:00 pm with a one hour lunch break
Thursday	7:30 am-2:00 pm with a one hour lunch break

MTECH SURGICAL TECHNOLOGY PROGRAM COST

The cost breakdown is an approximate amount for the program and can be found at:

<https://mtec.edu/programs/surgical-technology/>

Please Note:

1. The non-refundable \$30 ST Program Application Fee must be paid before you turn in the MTECH Application Packet.
2. The \$40 MTECH Student Registration Fee will be paid once admitted to the ST program.
3. You are required to pay for the 9-panel drug screen and the BCI background check application documents before the application deadline. Both of these results documents will be forwarded to the surgical technology program.

4. Once you are admitted to MTECH, you will need to register and pay your FULL tuition two weeks before the program start date at Student Services. Tuition rates generally change annually on July 1st, and may increase from current rates.
5. The above costs are estimates only. The cost for fees, tuition, and any other associated costs are subject to change at any time, and without notice.

By signing here, I agree that I have read and understand the information to this point.

APPLICATION PACKET REQUIREMENTS

Application submission does not guarantee acceptance nor a program interview. Incomplete or late applications will not be processed. The top 20 applicants, selected by the Surgical Technology Program Faculty, will be invited to a program interview. The Surgical Technology Program webpage has the current dates and deadlines for the application.

CHECKLIST: All documents below are required for consideration of a ST Program Coordinator's interview:

- **Career Ready 101 Math and English Assessment or equivalent.** (Contact: MTECH Testing Center, M-F, 8 – 5 p.m.).
- **Application for Admission form:** completed and signed. The entire and original application, including all requirements.
- **One-page essay:** on why you want to be a Surgical Technologist. Times New Roman, 12-point font, double-spaced.
- **Current CV or Résumé.**
- **Official: High School Diploma, (copy), and College transcripts:** in sealed envelope from the institution. **Applicant must be a High School graduate and must be 18 years old by the deadline. A High School Diploma document is required by our programmatic accreditation.**
- **Background check results.** An official, embossed, and original document from BCI is required, **(current within 1 year).**
 - ***The prospective student must post mail fingerprints, fee, and third-party release forms, directly to the BCI address.***
 - **Allow at least 3 weeks prior to the deadline to submit forms to BCI for processing.** The BCI results document is required **prior** to consideration for a program interview. BCI will mail the official results to the Surgical Technology Program.
- **Drug Screen:** 9 Panel to be obtained at IHC Orem Work-Med, 830 North 980 West Orem, Utah. Students are financially responsible for this.
 - The documentation results must be sent from Orem Work-Med prior to or by the deadline.
 - Allow at least 3 weeks prior to obtain a 9 panel drug screen It will be sent directly to the ST Program.
- **A copy of immunization documentation for all of the following:** ALL are required to complete the application.
 - **Evidence of immunity to Measles, Mumps, Rubella as demonstrated by either:**
 1. Documentation of two MMR immunizations at least 28 days apart after the age of

one (1) or

2. Documentation of a positive antibody Titer for Measles/Mumps/Rubella.

▪ **Immunity to Varicella** (chickenpox) verified by official documentation:

1. Booster one (1) immunizations if vaccinated before age 13, two (2) if vaccinated after age 13, or

2. Positive Antibody Titers.

▪ **TB Test:** (2 step test), documentation, must be **current at the time of application**.

1. The test can be obtained at the Utah County Health Department.

2. If a student receives a positive TB test, an official document of a clear lung x-ray is required.

▪ **Hepatitis A and B Vaccine** (three dose series), or:

1. Twinrix (three dose series), or

2. Positive Titer for Hepatitis A and B, (at least 1st and 2nd done, in the three to start)

▪ **TDAP Immunization:**

1. **TDAP only**. This is not the same as DTaP, DPT, a Td or a Tetanus shot. Not older than 10 years.

□ **Annual Flu Shot documentation. Must be current at the time of application.**

Pregnant students need to consult their physician before beginning the vaccinations and tests.

Please note: It is the right of MTECH's participating surgical facilities to deny the student entry into their operating room facility if the student is not completely vaccinated.

By signing here, I agree that I have read and understand the information to this point.

WHAT HAPPENS AFTER YOU APPLY

Once the application period is closed, the Surgical Technology Program Coordinator and Faculty will review all submissions and contact each selected applicant for a program interview. The top 20 applicants will be invited for an interview. Incomplete application packets, and application packets not submitted by the deadline, will not be processed.

Application evaluations use a point system with a standard rubric to select candidates based on the Career Ready 101 Math and English Assessment scores, the essay and the interview, and complete application packet requirements, including embossed document results from BCI background check. The 9-panel drug screen results prior to or by the deadline. The drug screen results are reported to us by the Intermountain Healthcare Orem Work-Med via our computer program with them.

The top 20 applicants selected by the program faculty will be contacted for a program interview. Twelve applicants with the highest overall scores following the interviews will then be offered seats in the program. The Surgical Technology Program Coordinator and faculty reserve the right to interview additional qualified applicants if the initial interviewees do not meet minimum standards. When additional clinical externship facility slots are secured, additional seats may be available.

MTECH SURGICAL TECHNOLOGY APPLICATION POINT BREAKDOWN

Components	Point Value
Interview	60
Interview Preparation and Impression	30
Essay	20
Medical Experience - Employment (5 points per year up to 2 years)	10
Medical Experience - Education (2 points per class up to 5 classes)	10
Documentation of Required and Current Immunizations. BCI, and 9 panel drug screen results, prior to interview invitation.	10
Career Ready 101 Assessment Test or testing center verified equivalent.	5
TOTAL	145

Applications are only good for one application period. If you apply, but are not accepted, you may reapply at another time. Surgical Technology Program admission and interviews are not guaranteed. **Previous application packets are not retained.**

ADDITIONAL INFORMATION YOU WILL NEED IF YOU ARE ACCEPTED:

Surgical Technology Program acceptance notices will be sent out **two weeks after** interviews are completed.

NOTE: Admission to the program is contingent on:

Full payment of tuition, fees, and registration with Student Services, **two weeks prior to class start date.**

I understand that upon acceptance into the MTECH Surgical Technology Program, that all the items listed above are required by the due date indicated in my acceptance letter. If I fail to submit required documents by the due dates given or if I fail to attend the first week of classes, I will be dropped from the program. I may reapply for another class in another application period. I further agree that I have read and understood all of the information on this page.*

By signing here, I agree that I have read and understand the information to this point.
