## **Background Test and Drug Screen**

A background test and drug screen will be required for all students to complete that are accepted into the Radiography Technology program. The Radiography Technology program will send out more information about how to complete the drug screen and background check once you are accepted into the program. We use a company called Verified Credentials to complete our tests. Please do not go out on your own and complete a background check and drug screen! We will not be able to use those results.
